

Family Literacy Day 2022

Family Literacy Day was initiated by ABC Canada Literacy Foundation and Honda Canada in 1999. It is a day in Canada when we nationally celebrate adults and children reading together. It encourages families to take extra time, beyond nightly reading, to celebrate the joy of reading, discussing and 'playing' with words and story. It has grown from being hosted in schools and libraries to be showcased through literacy organizations and community centres, like our own Comox Community Centre
